

AI Engineer - Applied AI Department

Company: :),ColonBracketComma Advanced Digital Archaeology and Artificial Intelligence R&D Company

Location: York (UK)/Istanbul (TR)

About Us: :), ColonBracketComma Advanced Digital Archaeology and Artificial Intelligence R&D Company is leading the way in leveraging advanced AI technologies to revolutionize the field of digital archaeology. With a focus on innovation and exploration, we're shaping the future of how we understand and interact with ancient civilizations.

Position Overview: We are looking for an experienced AI Engineer to join our Applied AI department. As part of our team, you will play a key role in developing and implementing AI algorithms and solutions to solve complex challenges in digital archaeology. From analysing archaeological data to developing AI-driven tools for exploration, your work will have a significant impact on our research initiatives.

Responsibilities:

- Collaborate with researchers and software engineers to develop AI models and algorithms for data analysis, pattern recognition, and predictive modelling.
- Design and implement scalable and efficient solutions for processing and interpreting large datasets.
- Conduct experiments and evaluations to assess the performance and accuracy of AI models.
- Stay current on emerging AI technologies and contribute to the research community through publications and presentations.
- Work closely with cross-functional teams to integrate AI solutions into our digital archaeology projects.

Qualifications:

- Bachelor's or Master's degree in Computer Science, Engineering, or related field.
- Proven experience in AI research and development, with expertise in machine learning, deep learning, and natural language processing.
- Strong programming skills in languages such as Python, Java, or C++.
- Familiarity with AI frameworks and libraries such as TensorFlow, PyTorch, or scikit-learn.
- Excellent analytical and problem-solving abilities, with a passion for applying AI to real-world challenges.

To Apply: If you're passionate about AI and digital archaeology and want to be part of a dynamic team pushing the boundaries of exploration and discovery, we'd love to hear from you. Please submit your resume and cover letter detailing your relevant experience and why you're excited about joining :), ColonBracketComma Advanced Digital Archaeology and Artificial Intelligence R&D Company to hr@colonbracketcomma.ai
