

Software Engineer, Frontend - Engineering Department

Company: :), ColonBracketComma Advanced Digital Archaeology and Artificial Intelligence R&D Company

Location: York (UK) / İstanbul (TR)

About Us: :), ColonBracketComma Advanced Digital Archaeology and Artificial Intelligence R&D Company is reshaping the way we explore and understand ancient civilizations through innovative digital technologies. As part of our Engineering department, we're committed to creating intuitive and engaging frontend experiences that bring our research to life for users around the world.

Position Overview: We are seeking a talented Software Engineer with expertise in frontend development to join our Engineering team. In this role, you will collaborate closely with designers, product managers, and backend engineers to create responsive and user-friendly interfaces for our digital archaeology applications and platforms.

Responsibilities:

- Design and develop interactive and visually appealing frontend applications and interfaces using modern web technologies such as HTML, CSS, and JavaScript.
- Collaborate with UX/UI designers to translate design mock-ups and wireframes into functional frontend components.
- Integrate frontend applications with backend services and APIs to enable seamless data exchange and functionality.
- Optimize frontend performance, responsiveness, and accessibility across different devices and browsers.
- Stay informed about emerging frontend technologies and best practices and share knowledge with team members.

Qualifications:

- Bachelor's or Master's degree in Computer Science, Engineering, or related field.
- Proven experience in frontend software development, with expertise in frontend frameworks such as React, Angular, or Vue.js.
- Strong understanding of web standards, responsive design principles, and cross-browser compatibility.
- Experience with version control systems (e.g., Git) and continuous integration/continuous deployment (CI/CD) pipelines.
- Excellent communication and collaboration skills, with the ability to work effectively in a multidisciplinary team environment.

To Apply: If you're passionate about creating seamless and engaging frontend experiences that bring digital archaeology to life, we'd love to hear from you. Please submit your resume and cover letter detailing your relevant experience and why you're excited about joining :), ColonBracketComma Advanced Digital Archaeology and Artificial Intelligence R&D Company to hr@colonbracketcomma.ai
